6 Thu 7 Fri 8 Sat 9 Sun 10 Mon 11 Tue 12 Wed 13 Thu 14 Fri 15 Sat 16 Sun 17 Mon 18 Tue 19 Wed 20 Thu 21 Fri 22 Sat 23 Sun 24 Mon 25 Tue

Implement basic NFC scanning functionality

create UI for NFCScanner app

Wait for NFC cards to be delivered

Restructure NFCScanner app to be demo presentable

implement buttons to emulate when nfc card is scanned

implement emulation of data on nfc card

emulate successful/failed NFC access attempts

Implement 'levels' of security to be checked by NFCScanner app

Link Github and Jira

Create Jira Account

Understand how Jira works

Project Rubric Requirements

Create tasks and priorities

Pick a software to use

make gantt chart

make wbs chart

Figure out how to make the chart and write it

make categories for tasks and divide them

connect jira/github

Project Management Document

Create base activity in android studio for NFCscanner app

add more detail to requirements

Add details to Implementation

Add details to Integration

Add details to Operation

Check the evaluation

Add limitations to Project Management Document

Add limitations to Project Management Document

Make sure README

Read over project requirements

Create Processing program to represent how the office security system will work visually

Create Office Layout

Resize Office Layout

Make doors

Have doors turn green

Make doors turn red after a few seconds have passed

Change code to work

Fix bug where doors turn red at the same time regardless of when doors are clicked

Add comments to code

Stop NFCScanner app
